

CHANDRA LIMIJARJA

DATA ANALYST | BUSINESS INTELLIGENCE (BI) & REPORTING ANALYST

Toronto, ON | (647) 881-7977 | chandra.limi16@gmail.com | [linkedin.com/in/chanlimi16](https://www.linkedin.com/in/chanlimi16)

Portfolio (Power BI/Tableau Dashboards): <https://climiarja.carrd.co/>

SUMMARY

- Data & Reporting Analyst with 5+ years of experience building automated reporting workflows, compliance datasets, KPI dashboards, and stakeholder-ready analytics using SQL, Python/Excel, Tableau, and Power BI.
- Experience across market research, fintech, and commercial reporting environments, with strengths in reporting dataset design, data quality, KPI implementation, and translating messy source data into clear insights and decision-ready reporting outputs.

EXPERIENCE

Brandspark International [Market Research] | Data & Reporting Analyst Jul 2024 – Jun 2026

- Managed survey-data reporting across 5–7 concurrent projects, validating supplier outputs, preparing analysis-ready datasets, and delivering stakeholder-ready reporting tables and dashboards on schedule.
- Built standardized Python workflows for survey data preparation across 50+ projects, reducing recurring manual prep by ~2 hours per day while improving validation consistency.
- Automated recurring Excel variable-generation workflows with Python, reducing standard turnaround from ~1 week to a few hours while improving downstream reporting consistency.
- Built a pilot Tableau dashboard for weighted survey analysis, translating segment, category, and benchmark data into insight views that identified performance gaps and opportunity spaces.

Koinworks [Fintech] | Data Analyst Mar 2022 – Dec 2023

- Owned recurring external compliance reports for 6 government, regulatory, and partner stakeholders, standardizing documentation, QA checks, and delivery processes to improve report submission reliability.
- Designed a single-source-of-truth customer data mart in BigQuery data warehouse, consolidating fragmented customer, demographic, product, and compliance attributes into reusable reporting tables.
- Identified incomplete customer-profile fields affecting mandatory reporting, then built enrichment and derivation logic to improve compliance reporting submission completeness and demographic analysis.
- Analyzed churn and borrower-risk patterns across demographic and behavioral segments, turning recurring data patterns into dashboards and insight summaries that highlighted risk drivers and retention opportunities.

Kalbe International [Pharmaceutical] | Data Analyst Jul 2020 – Dec 2021

- Automated a daily sales reporting pipeline using UiPath, SSIS, SQL Server, and Tableau, reducing manual report preparation by ~90% and improving reporting freshness from monthly to daily.
- Built executive Tableau dashboards and standardized KPI logic for YTD/MTD trends, target pacing, YoY growth, and country/product contribution, identifying performance gaps, growth drivers, and underperforming international markets.
- Audited SQL logic across 24 reports and dashboards, resolving duplicate structures and inconsistent KPI definitions that caused recurring finance and commercial reporting discrepancies.
- Standardized inconsistent distributor submissions across 38 international markets into a centralized reporting dataset supporting recurring executive and operational analysis.

KEB Hana Bank | Data Analyst Oct 2019 – Jun 2020

- Identified outlier agent activity and extreme call-time gaps in CRM/call-center data, then created a recurring KPI dashboard and anomaly tracker in Excel to support stakeholder review and CRM system correction.
- Consolidated recurring daily CRM CSV exports into a lightweight Access database, reducing manual file wrangling and improving reporting version control.

EDUCATION

Humber College | Post-Graduate Certificate – Research Analyst Jan 2024 – Jan 2025

Bina Nusantara University | B.Sc. Computer Science Aug 2013 – Sep 2018

AWARD

Map the System Winner | Map the System Canada June 2024

Synthesized research on community wellbeing and service access into a stakeholder-facing analysis, identifying system gaps and recommending service improvement opportunities.

SKILLS

Reporting & Business Intelligence: KPI/executive reporting, ETL/data pipelines, compliance reporting, KPI definition, stakeholder reporting

Data Preparation & Quality: Reporting data modeling, data marts, data profiling, data validation, QA/reconciliation, anomaly detection

Tools & Automation: SQL, Tableau, Power BI, Metabase, BigQuery, Snowflake, Python, Databricks, Looker, Excel (VBA/macros), dbt CLI

Data Analysis & Experimentation: Statistical analysis, A/B testing, cohort/segment analysis, regression, forecasting, data storytelling
